## ABOUT ME

I am an experienced designer, researcher, and developer with extensive experience in statistical research and linguistic analysis. Good software today is about three things: functionality, usability, and clarity. With my background in marketing and linguistics, I bring a fresh perspective to the table to help make sure that your website works for everyone who needs to use it. And, my experience working with tech companies means that I'll be right at home in your team.

## QUALIFICATIONS & EXPERIENCE

### EDITING AND DESIGN - 5 YEARS

- ▶ Innovative and Creative design that integrates with and emphasizes content and function.
- ▶ Exact editing to ensure clarity and function across many different mediums.
